Agile & UX methods

RGAA Accessibility

Inclusive web & mobile

OVERVIEW

Design of an innovative mobile app for the daily life of AXA employees. A hub bringing together the digital badge, desk booking and wayfinding.

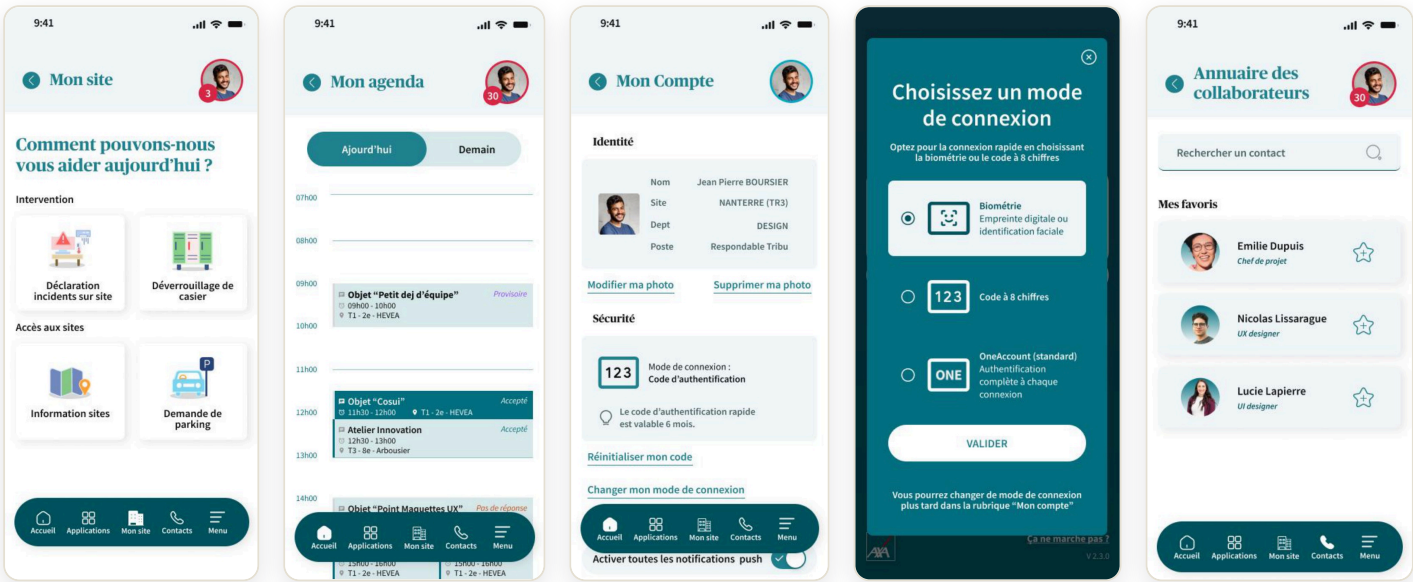

USER GOALS

- Secure digital badge access
- Desk booking
- Calendar and staff club activities

METHODOLOGY

- User interviews & personas
- Co-design workshops
- Wireframing, prototyping & testing

SCREENSHOTS & MOBILE INTERFACES

BNP Partner Portal — B2B Leasing Management

Client: BNP Leasing Solutions — Role: Lead UX/UI

OVERVIEW

Full redesign of the international leasing contract portfolio portal. An intuitive interface for browsing contracts, managing assets and tracking financials.

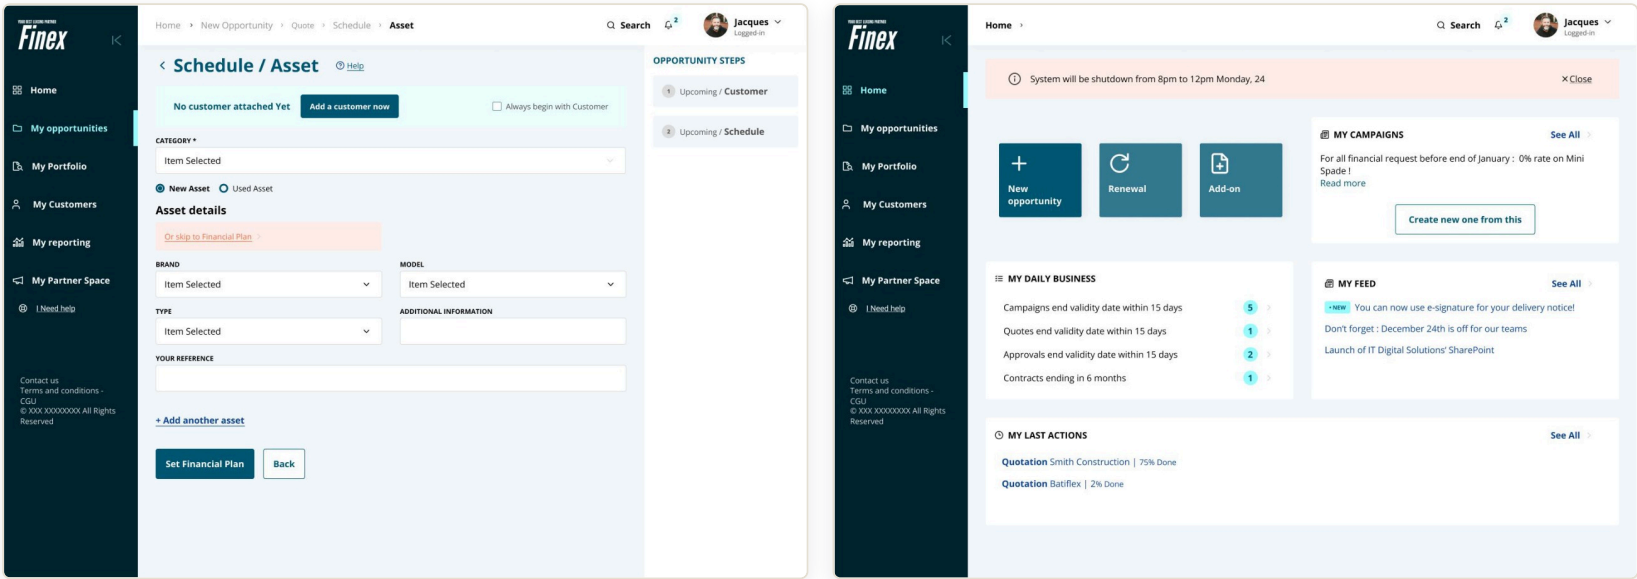

USER GOALS

- Centralised portfolio access
- Clear data visualisation
- Asset and payment tracking

METHODOLOGY

- UX audit of the existing tool & interviews
- New information architecture
- High-fidelity prototyping & UX testing

SCREENSHOTS & WEB BUSINESS INTERFACES

GRTgaz — Real-Time Monitoring

Client: GRTgaz — Role: Expertise UX/UI

Web

Real Time

Monitoring

Energy

OVERVIEW

Design of a monitoring interface for gas pivot and transfer operations.
A mission-critical tool for real-time supervision.

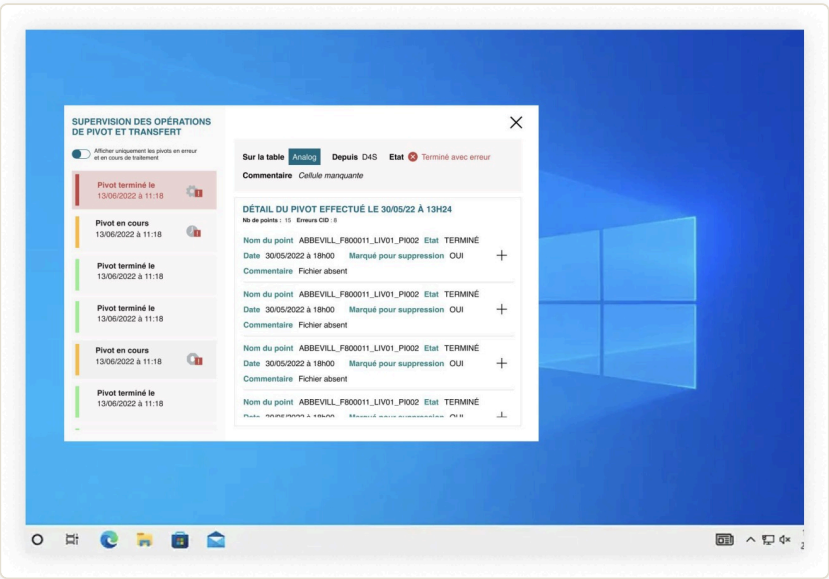

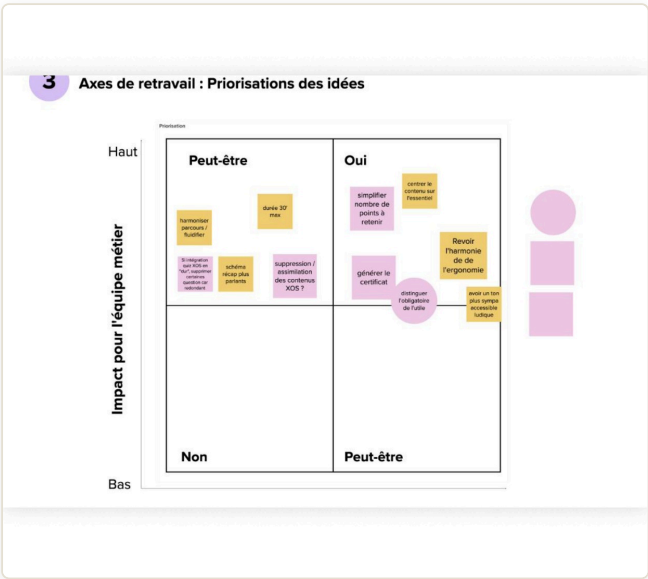

USER GOALS

- Real-time view of operations
- Fast identification of anomalies
- Efficient incident handling

METHODOLOGY

- Field observation of operators
- Co-design workshops with domain experts
- Design system for critical interfaces

SCREENSHOTS & MONITORING INTERFACES

Home+ — Home Services Platform

Client: URSSAF — Role: UX/UI Designer

OVERVIEW

Creation of a platform dedicated to home services plus a Cesu directory. MVP definition, user story mapping and empathy mapping.

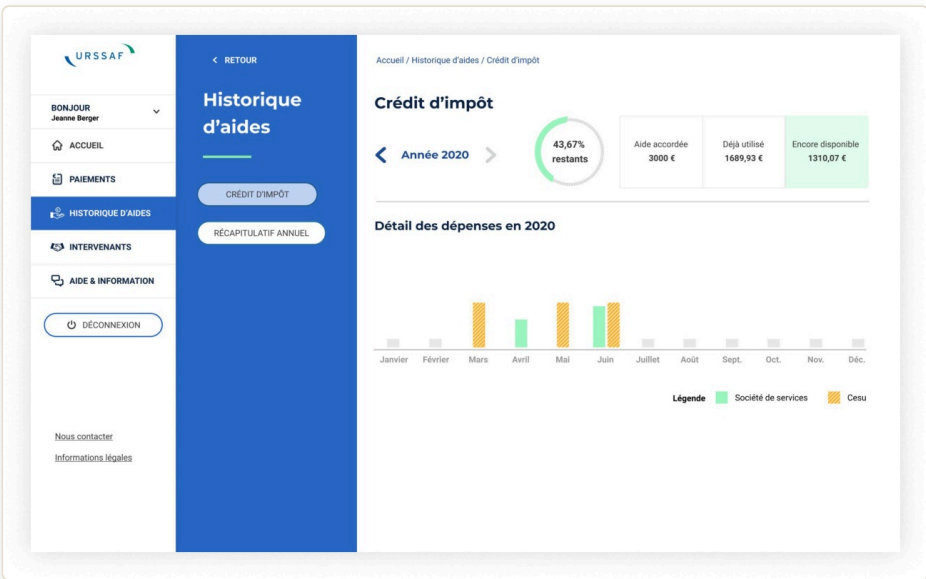

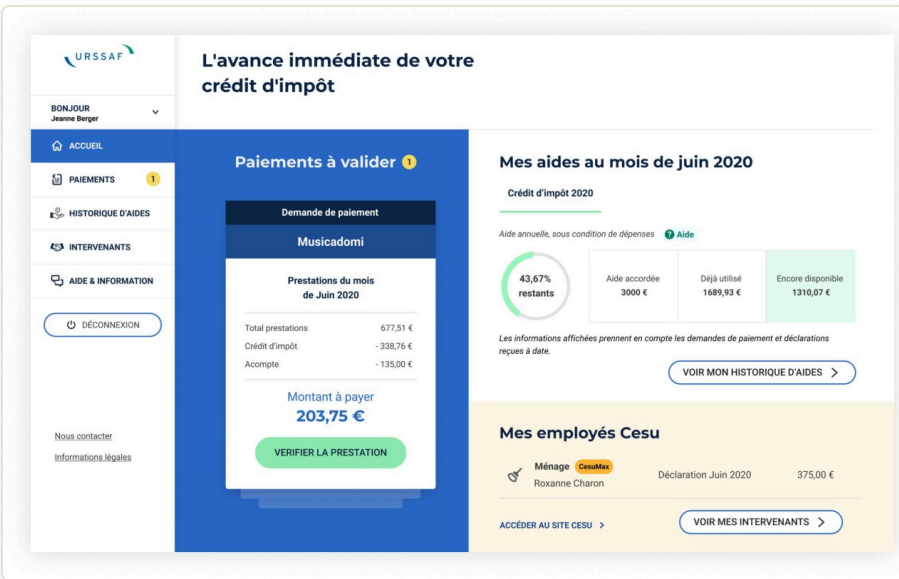

USER GOALS

- Pay invoices directly
- Real-time tax credit tracking
- Private employer directory

METHODOLOGY

- Interviews & guerrilla testing
- Co-design workshops
- Accessibility testing (RGAA)

SCREENSHOTS & WEB PLATFORM

Aeklys — IoT Payment Ring Companion App

Client: Icare Technologies — Role: UI/UX Designer

OVERVIEW

UI/UX design of the Aeklys companion mobile app, a standalone NFC payment ring. Startup challenge: MVP delivered in 2 months.

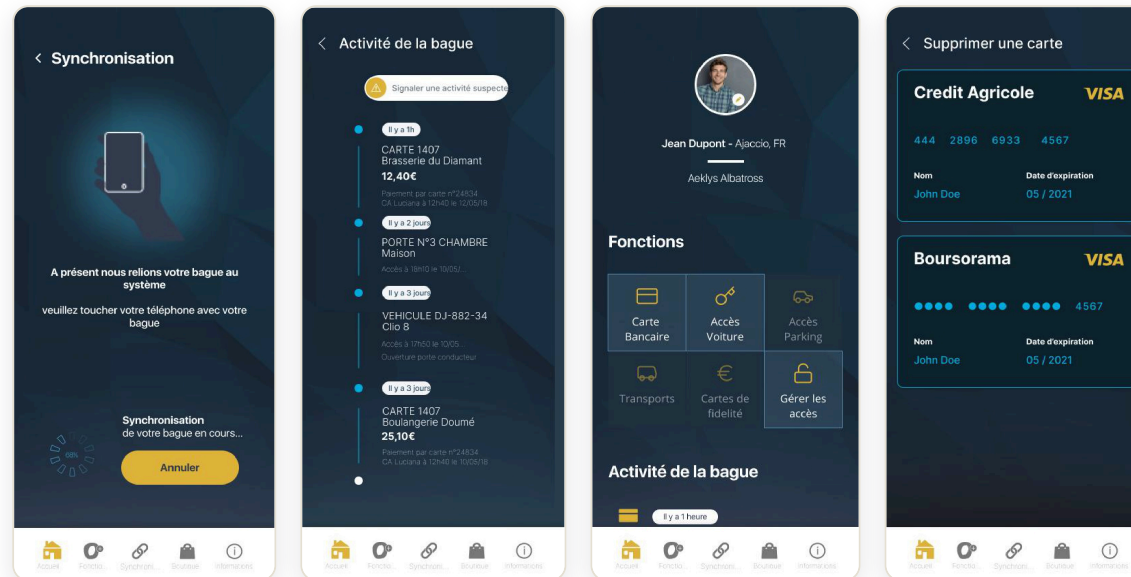

GOALS

- Ring and bank card pairing
- Intuitive, secure interface
- Mobile contactless management

METHODOLOGY

- Fast iterative design
- Prototyping & user testing
- Agile sprint delivery

SCREENSHOTS & COMPANION MOBILE INTERFACES

Design Sprint — Digital Accessibility

Client: Pôle Emploi — Role: Design Sprint Lead

OVERVIEW

A 5-day PimpMyApp Design Sprint to raise awareness and equip teams on digital accessibility from the earliest design stages.

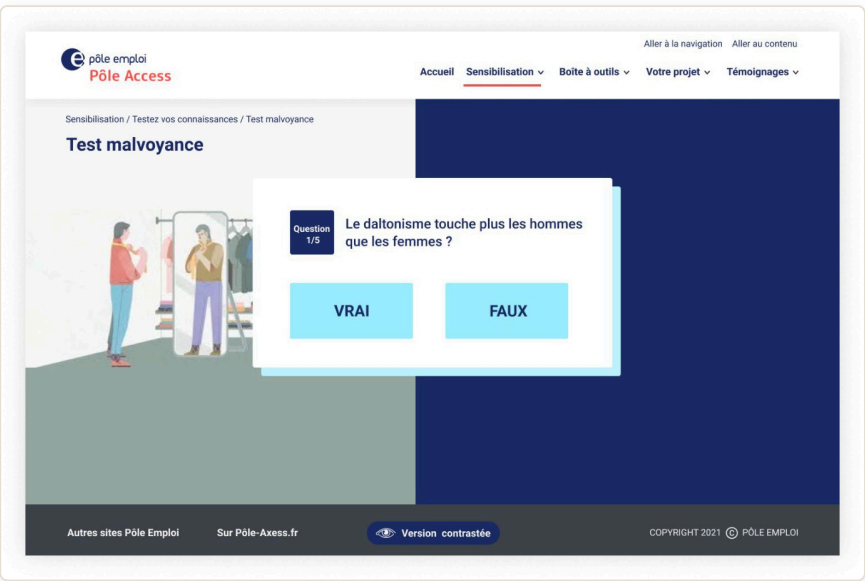

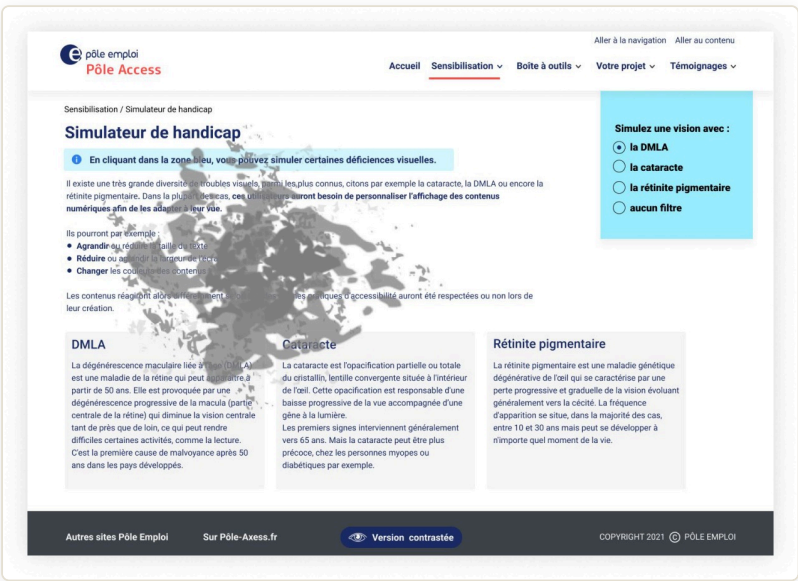

SOLUTION DESIGNED

- Interactive awareness platform
- Visual impairment simulator
- Guided RGAA checklist for project managers

METHODOLOGY

- Full Design Sprint (5 days)
- Personas & empathy mapping
- Prototyping & user testing

SCREENSHOTS & DESIGN SPRINT PROTOTYPES

Opco Atlas — AtlaSkills Matching Platform

Client: PimpMyApp / Opco Atlas — Role: Lead UX/UI

OVERVIEW

Apprenticeship matching platform: the AtlaSkills landing page and a 3-step job posting flow with automatic skill suggestions.

KEY UX POINTS

- AI-suggested job titles
- Guided job posting flow
- Clear, structured candidate profile

DELIVERABLES

- Landing page & company area
- Design System & components
- High-fidelity prototype

SCREENSHOTS & SAAS PLATFORM
